

MiniOne has set up 10 scholarships of USD 1,500 each to support secondary students of Hong Kong to participate in the International Genetically Engineered Machine (iGEM) competition in Paris, France on October 28 - 31, 2025.

The scholarship will be awarded to the students who have:

- a) excellent performance in academic studies;
- b) demonstrated leadership and good communication skills;
- c) strong commitment to the iGEM competition
- d) recognized contribution to the school iGEM team

Those with financial need will be given preference.

Each applicant needs to apply using the below form and an attached 150-word self-recommendation and 150-word teacher recommendation.

The application form and attached recommendations should be sent to iGEM@theminione.com by July 4, 2025. Awards will be announced in early August 2025.
